- **27th Annual National Congress of the Association for Mathematics Education of South Africa (AMESA) – participation invited**

The theme of the 27th Annual National Congress of the [Association for Mathematics Education of South Africa](#) (AMESA) Congress is 'Digging Deeper: Teaching mathematics for understanding in and beyond the classroom'. For the past ten years and more of the South African National Senior Certificate (NSC) reports, the mathematics national pass rate has never exceeded 60%, thereby limiting the quantity and quality of passes, and the number of learners proceeding to tertiary institutions to successfully complete a qualification in the mathematics, science, engineering, technology and related fields. Demystifying mathematics, bringing mathematics in context, back to basics and many other slogans, are all endeavours to express the belief that we all have to dig deeper, and work harder and smarter to improve the standard and state of mathematics educational achievements in South African schools. [Read more](#).

- **Corrosion Institute of Southern Africa (CISA) Executive Director speaks on fight against corrosion**
