The Morning Show on Etv with Ms Jansie Niehaus

Transitions in South African energy provision, an NSTF Discussion Forum

The [National Science and Technology Forum \(NSTF\)](http://www.nstf.org.za) invites you to watch an engaging interview with Ms Jansie Niehaus (NSTF Executive Director) on The Morning Show on Etv. Ms Niehaus will be interviewed on the pressing issues related to the NSTF Discussion Forum on '[Transitions in South African energy provision](#)' coming up on 22-23 August 2023. The interview will be broadcast live prior to the start of the discussion forum. Tune in to find out more.

About the discussion forum: A system of loadshedding (rolling blackouts) is now a feature of daily life, and the increasingly negative effects of this are experienced by all South Africans.

How should the transitions to clean and secure electricity supply be managed? How can SA's electricity crisis be ended, its impacts mitigated and long term supply of electricity be established on a firm footing?

Biography: Ms Jansie Niehaus is the Executive Director of the NSTF since 2006. She is also the current chairperson of the Committee of Heads of Organisations in Research and Technology (COHORT) since 2022. She previously worked for the Department of Science and Innovation. With qualifications in mathematics and education, she worked in the field of maths education in various capacities over 16 years.

NSTF is an independent non-profit stakeholder body and network – a civil-society forum, voice to government for the science, engineering, technology (SET), and innovation community, including the private and public sectors, and promotes SET and innovation in South Africa since 1995.

About the NSTF

The National Science and Technology Forum (NSTF), established in 1995:

- is a broadly-representative stakeholder body for all science, engineering and technology (SET) and innovation organisations in South Africa
- gathers stakeholders around burning issues of national and global interest, across the public and private sectors, including matters of public policy
- includes a network of professional societies in SET and STEM education (STEM = science, technology, engineering and mathematics) - the NSTF proSET membership sector.
- recognises, awards and profiles the outstanding contributions of individuals and groups to SET and innovation through the prestigious NSTF Awards
- runs and supports collaborative projects and youth outreach, including recognition of top performance in mathematics and science, role modelling, bursary and STEM career information
- runs and supports the STEMulator.org which attracts youth and educators to Explore>Discover>Learn the world of STEM including careers. (Established by NSTF proSET)
