

Report on the STEMulator Project's Activities from May 2026 to August 2026

Content

- New content has been added in the house, the agricultural, and the museum tile
- The skyscraper is now clickable, and takes you to the construction tile
- Added an indicator on the homepage to encourage people to register (climb up the leaderboard)

STEMulator App

- There has been a steady rise in app downloads

Publicity

- We listed STEMulator on NicheMarket, a website that comes with 3 free advertisement slots per month
- Our youth month campaign has been circulated to STEMulator subscribers and proSET members
- Submitted a funding application to the FEM Education Foundation
- We have been listed on Snapplify's website as a free resource
- TeachSA included us in their mid-year newsletter
- We have been sending marketing emails to science centres across the country

Outreach

- Exhibited at the University of Johannesburg Career Engagement Day – 04/05/2026
- Exhibited at the Department of Basic Education's event – 01-02/07/2026
- Exhibited at the National Science Month Launch – 03-04/07/2026
- Exhibited at the Global Education Teacher's Summit – 11/07/2026
- Exhibited at Eskom Expo – 25/07/2026
- Exhibited at NSM at the Johannesburg Botanical Gardens – 28/07/2026
